With the profusion of television programmes dedicated to the purchase or sale of neglected, run-down, or downright "tatty" property, one could be forgiven for thinking that all houses are like that! But as it happens, few are. Many, like this DETACHED HOUSE, are presented in particularly "clean and tidy" order, having been carefully maintained as "prize possessions" by the owners in occupation. And in this case, it is no different. Having been in the same family for nearly 30 years, the property has been modernised and improved during that time, featuring a replacement bathroom suite, a conservatory-style summer house, a carport, and an en-suite to the main bedroom. Whilst certain aspects of the house have been tastefully updated, there remain areas that now offer scope for further improvement, giving the new owners the opportunity to place their own personal stamp on the property. Situated just 300 metres from the beach, the property boasts an enviable coastal position within the village of Aldwick. On a more global basis, the town centre of Bognor Regis lies about a mile to the east, with main line railway connections to London Victoria. The historic city of Chichester is just over 6 miles to the north east with its variety of shops, museums, galleries, the Cathedral and of course Chichester Festival Theatre. Apart from the attractions of the sea, the Downs lie some 10 miles to the north with Goodwood providing attractions for the horse racing
