Energy Performance Certificate (EPC) If you are selling a property you will need an Energy Performance Certificate. It contains information on your home's energy use and carbon dioxide emissions. It also contains a recommendation report with suggestions to reduce energy use and carbon dioxide emissions. EPCs carry ratings that compare the current energy efficiency and carbon dioxide emissions with potential figures that the property could achieve. Potential figures are calculated by estimating what they might be if certain energy saving matters were to be put in place. The rating measures the energy and carbon dioxide emission efficiency of a property, using a grade from 'A' down to 'G'. An 'A' rating is the most efficient, whilst 'G' is the least efficient.
