| | | |
|--|--|---------------------------|
| 2 Richmond Road Westerton CHICHESTER PO18 0PQ | | Energy rating E |
|--|--|---------------------------|

| | |
|-------------------------------------|---|
| Valid until 24 March 2036 | Certificate number 2150-4277-0060-0102-4625 |
|-------------------------------------|---|

| | |
|---------------|---------------------|
| Property type | Semi-detached house |
|---------------|---------------------|

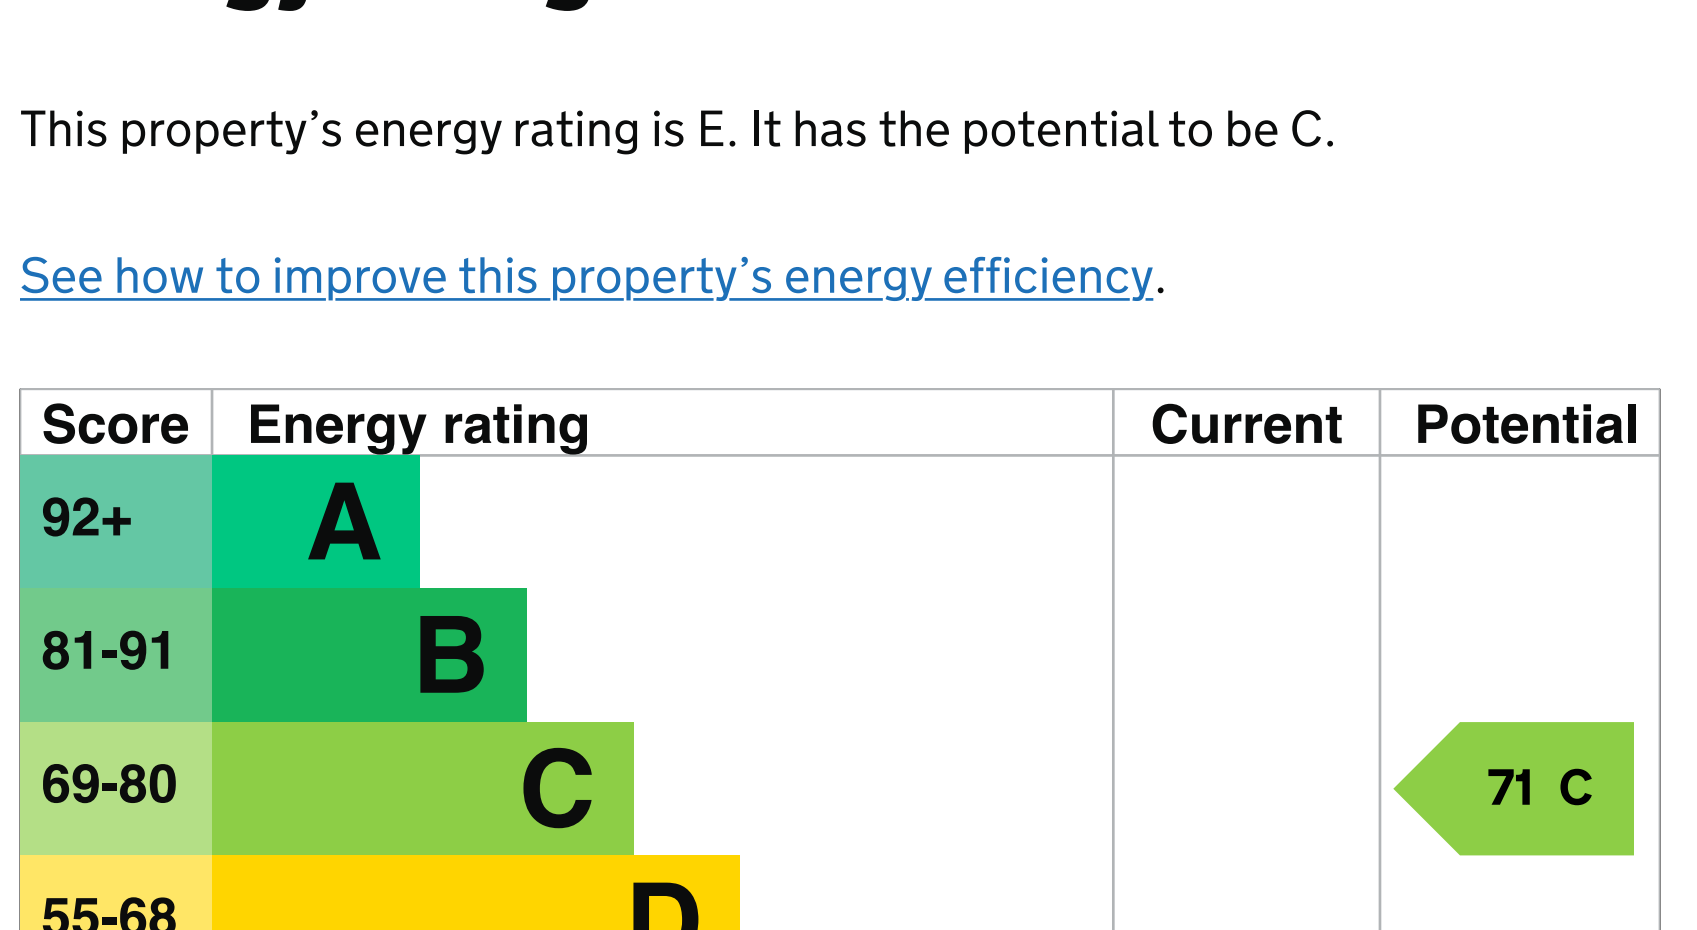

| | |
|------------------|------------------|
| Total floor area | 75 square metres |
|------------------|------------------|

Rules on letting this property

Properties can be let if they have an energy rating from A to E. You can read [guidance for landlords on the regulations and exemptions](#).

Energy rating and score

This property's energy rating is E. It has the potential to be C. See how to [improve this property's energy efficiency](#).

The graph shows this property's current and potential energy rating.

Properties get a rating from A (best) to G (worst) and a score. The better the rating and score, the lower your energy bills are likely to be.

- For properties in England and Wales:
- the average energy rating is D
 - the average energy score is 60

Breakdown of property's energy performance

Features in this property

Features get a rating from very good to very poor, based on how energy efficient they are. Ratings are not based on how well features work or their condition.

Assumed ratings are based on the property's age and type. They are used for features the assessor could not inspect.

| Feature | Description | Rating |
|----------------------|--|---------|
| Wall | Cavity wall, filled cavity | Good |
| Roof | Pitched, 100 mm loft insulation | Average |
| Window | Fully double glazed | Poor |
| Main heating | Electric storage heaters | Good |
| Main heating | Electric storage heaters | Average |
| Main heating control | Controls for high heat retention storage heaters | Good |
| Main heating control | Manual charge control | Poor |
| Hot water | Electric immersion, off-peak | Poor |
| Lighting | Below average lighting efficiency | Poor |
| Floor | Solid, no insulation (assumed) | N/A |
| Air tightness | (not tested) | N/A |
| Secondary heating | Portable electric heaters (assumed) | N/A |

Primary energy use

The primary energy use for this property per year is 225 kilowatt hours per square metre (kWh/m²).

[About primary energy use](#)

Smart meters

This property had **no smart meters** when it was assessed. Smart meters help you understand your energy use and how you could save money. They may help you access better energy deals.

[Find out how to get a smart meter](#)

How this affects your energy bills

An average household would need to spend **£2,271 per year on heating, hot water and lighting** in this property. These costs usually make up the majority of your energy bills.

You could **save £449 per year** if you complete the suggested steps for improving this property's energy rating.

This is **based on average costs in 2026** when this EPC was created. People living at the property may use different amounts of energy for heating, hot water and lighting.

Heating this property

- Estimated energy needed in this property is:
- 8.864 kWh per year for heating
 - 1.957 kWh per year for hot water

Impact on the environment

This property's environmental impact rating is C. It has the potential to be B. Properties get a rating from A (best) to G (worst) on how much carbon dioxide (CO₂) they produce each year.

Carbon emissions

| | |
|--------------------------------------|-------------------------------|
| An average household produces | 6 tonnes of CO ₂ |
| This property produces | 1.6 tonnes of CO ₂ |
| This property's potential production | 1.0 tonnes of CO ₂ |

You could improve this property's CO₂ emissions by making the suggested changes. This will help to protect the environment.

These ratings are based on assumptions about average occupancy and energy use. People living at the property may use different amounts of energy.

Steps you could take to save energy

[Do I need to follow these steps in order?](#)

Step 1: Increase loft insulation to 270 mm

| | |
|--|---------------|
| Typical installation cost | £900 - £1,200 |
| Typical yearly saving | £69 |
| Potential rating after completing step 1 | 52 E |

Step 2: Floor insulation (solid floor)

| | |
|---|------------------|
| Typical installation cost | £5,000 - £10,000 |
| Typical yearly saving | £127 |
| Potential rating after completing steps 1 and 2 | 55 D |

Step 3: Hot water cylinder insulation

Add additional 80 mm jacket to hot water cylinder

| | |
|--|-----------|
| Typical installation cost | £20 - £40 |
| Typical yearly saving | £45 |
| Potential rating after completing steps 1 to 3 | 55 D |

Step 4: Low energy lighting

| | |
|--|-------------|
| Typical installation cost | £240 - £280 |
| Typical yearly saving | £47 |
| Potential rating after completing steps 1 to 4 | 57 D |

Step 5: Solar water heating

| | |
|--|-----------------|
| Typical installation cost | £4,000 - £7,000 |
| Typical yearly saving | £93 |
| Potential rating after completing steps 1 to 5 | 58 D |

Step 6: High performance external doors

| | |
|--|-----------------|
| Typical installation cost | £2,700 - £3,600 |
| Typical yearly saving | £69 |
| Potential rating after completing steps 1 to 6 | 59 D |

Step 7: Solar photovoltaic panels, 2.5 kWp

| | |
|--|------------------|
| Typical installation cost | £8,000 - £10,000 |
| Typical yearly saving | £368 |
| Potential rating after completing steps 1 to 7 | 71 C |

Advice on making energy saving improvements

[Get detailed recommendations and cost estimates](#)

Help paying for energy saving improvements

- You may be eligible for help with the cost of improvements:
- Free energy saving improvements: [Warm Homes Local Grant \(WHLG\)](#)
 - Heat pumps and biomass boilers: [Boiler Upgrade Scheme](#)
 - Help from your energy supplier: [Energy Company Obligation](#)

Who to contact about this certificate

Contacting the assessor

If you're unhappy about your property's energy assessment or certificate, you can complain to the assessor who created it.

| | |
|-----------------|--|
| Assessor's name | Daniel Rogerson |
| Telephone | 07885 748611 |
| Email | southdownenergy@gmail.com |

Contacting the accreditation scheme

If you're still unhappy after contacting the assessor, you should contact the assessor's accreditation scheme.

| | |
|----------------------|--|
| Accreditation scheme | Quidos Limited |
| Assessor's ID | QUID211024 |
| Telephone | 01225 667 570 |
| Email | info@quidos.co.uk |

About this assessment

| | |
|------------------------|-----------------------|
| Assessor's declaration | No related party |
| Date of assessment | 24 March 2026 |
| Date of certificate | 25 March 2026 |
| Type of assessment | RdSAP |

Other certificates for this property

If you are aware of previous certificates for this property and they are not listed here, please contact us at mhclg.digital-services@communities.gov.uk or call our helpdesk on 020 3829 0748 (Monday to Friday, 9am to 5pm).
