This map displays nearby coal mine entrances and their classifications.

Mine Entry

- ✕ Adit
- ✕ Gutter Pit
- ✕ Shaft

The Coal Authority has records of over 175,000 mine entries within the UK captured in the National Coal Mining database, derived from sources including abandonment plans, geological and topographical plans.

Coal mining activity is recorded as far back as the 13th century, but prior to 1872 there was no requirement to deposit abandonment plans. It is therefore believed there may be many unrecorded mine entries of which the Authority has no information or knowledge. These entries do not, therefore, appear within the Authority's national dataset as shown on this map.

Maps

Conservation Areas

This map displays nearby official conservation areas. Every local authority in England has at least one conservation area. Most are designated by the Council as the local planning authority, though Historic England and the Secretary of State also have the power to create them.

Maps

Council Wards

The UK is divided into wards that are used for local elections to elect local government councillors. Sometimes these are known as 'electoral divisions'. Population counts can vary substantially between wards, but the national average is about 5,500

Nearby Council Wards

-  Grantham Harrowby Ward
-  Belmont Ward
-  Grantham St. Wulfram's Ward
-  Grantham St. Vincent's Ward
-  Grantham Arnoldfield Ward
-  Grantham Barrowby Gate Ward

-  Grantham Springfield Ward
-  Peascliffe & Ridgeway Ward
-  Belvoir Ward

This map displays the noise levels from nearby network rail and HS1 railway routes that affect this property...

Rail Noise Data

This data indicates the level of noise according to the strategic noise mapping of rail sources within areas with a population of at least 100,000 people (agglomerations) and along Network Rail and HS1 traffic routes.

The data indicates the annual average noise levels for the 16-hour period between 0700 - 2300.

Noise levels are modelled on a 10m grid at a receptor height of 4m above ground, polygons are then produced by merging neighbouring cells within the following noise classes:

5		75.0+ dB	■
4		70.0-74.9 dB	■
3		65.0-69.9 dB	■
2		60.0-64.9 dB	■
1		55.0-59.9 dB	■

Flood Risk

Rivers & Seas - Flood Risk

This map shows the chance of flooding from rivers and / or the sea, taking into account flood defences and their condition.

Risk Rating: Very low

The map does not contain sufficient information for it to be used to determine flood risk to individual properties, but it does give you an indication of whether your area may be affected by surface water flooding at this risk level.

-  **High Risk** - an area which has a chance of flooding of greater than 1 in 30 (3.3%) in any one year.
-  **Medium Risk** - an area which has a chance of flooding of greater than 1 in 100 (1.0%) in any one year.
-  **Low Risk** - an area which has a chance of flooding of greater than 1 in 1000 (0.25%) in any one year.
-  **Very Low Risk** - an area in which the risk is below 1 in 1000 (0.25%) in any one year.

Chance of flooding to the following depths at this property:

Flood Risk

Rivers & Seas - Climate Change

This map shows the future chance of flooding from rivers and / or the sea **between 2036 and 2069**, taking into account flood defences and their condition. The government climate change models cannot predict exactly when the chance of flooding will go up. It could happen at any time during the time period.

Risk Rating: Very low

The map does not contain sufficient information for it to be used to determine flood risk to individual properties, but it does give you an indication of whether your area may be affected by surface water flooding at this risk level.

-  **High Risk** - an area which has a chance of flooding of greater than 1 in 30 (3.3%) in any one year.
-  **Medium Risk** - an area which has a chance of flooding of greater than 1 in 100 (1.0%) in any one year.
-  **Low Risk** - an area which has a chance of flooding of greater than 1 in 1000 (0.1%) in any one year.
-  **Very Low Risk** - an area in which the risk is below 1 in 1000 (0.1%) in any one year.

Chance of flooding to the following depths at this property:

Flood Risk

Surface Water - Flood Risk

This map shows the chance of flooding where rainwater has nowhere to drain. This kind of flooding can occur far from rivers or seas.

Risk Rating: Very low

The map does not contain sufficient information for it to be used to determine flood risk to individual properties, but it does give you an indication of whether your area may be affected by surface water flooding at this risk level.

-  **High Risk** - an area which has a chance of flooding of greater than 1 in 30 (3.3%) in any one year.

Masts & Pylons

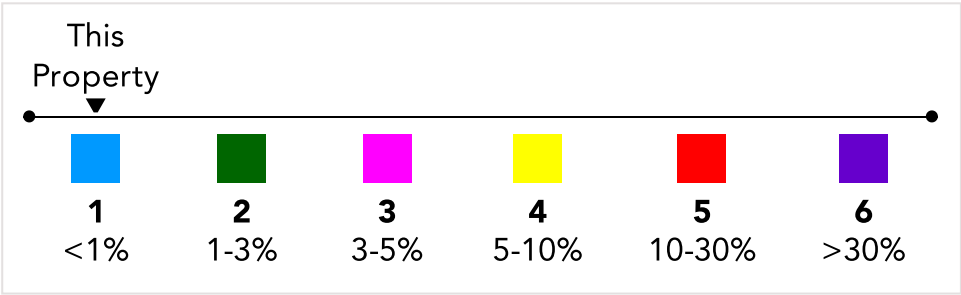

Key:

-  Power Pylons
-  Communication Masts

What is Radon?

Radon is a natural radioactive gas, which enters buildings from the ground. Exposure to high concentrations increases the risk of lung cancer. The UK Health Security Agency (UKHSA) recommends that radon levels should be reduced in homes where the annual average is at or above 200 becquerels per cubic metre (200 Bq/m3).

Local Area Road Noise

This data indicates the level of noise according to the strategic noise mapping of road sources within areas with a population of at least 100,000 people (agglomerations) and along major traffic routes. This indicates a 24 hour annual average noise level with separate weightings for the evening and night periods.

Noise levels are modelled on a 10m grid at a receptor height of 4m above ground, polygons are then produced by merging neighbouring cells within the following noise classes:

- 75.0+ dB
- 70.0-74.9 dB
- 65.0-69.9 dB
- 60.0-64.9 dB
- 55.0-59.9 dB

Charles Dyson Estate Agents

Specialising in Grantham and the surrounding villages, Charles Dyson Estate Agents is committed to providing exceptional levels of customer service, through our dedicated and experienced team.

As most people choose their agent based on their location and experience, we are proud that the majority of our vendors and landlords are either recommended to us or are repeat customers who value the local knowledge of our friendly and experienced staff.

Whether you are buying, renting or selling we guarantee to offer a genuine one-to-one service at an affordable price.

Call us today to discuss your requirements with one of our team who will always be pleased to offer friendly impartial advice.

Testimonial 1

I bought my property through this team so they weren't directly representing me, though I did find them to be very friendly and helpful.

I couldn't get along with my conveyancer who didn't seem to want to know me, but Kristie was able to make up that shortfall by keeping me informed of what was going on from the buyer's side.

On the day I collected my keys they even gave me a welcome box full of some new home goodies.

Testimonial 2

I use Charles Dyson Estate & Letting Agents to manage all of my properties in the Grantham area. It is always my preference to deal with a local estate agent with a family feel, rather than a regional or national agency (that don't really care!).

I first started to use Charles Dyson Estate & Letting Agents in 2021, and three years on, their service continues to be exceptional.

Testimonial 3

Charles Dyson have been absolutely brilliant. A phenomenal service with great communication throughout our property sale. The team were so friendly and warm and made selling our home easy. We received regular updates during the sale and were impressed with the timely and professional service provided. We will definitely use Dysons again in the future.

Testimonial 4

Absolutely fantastic experience using Charles Dyson Estate agents to sell our property. The communication and level of efficiency was outstanding, they were really proactive and made the selling process as easy as possible for us.

Would highly recommend.
