

Energy performance certificate (EPC)

Dolawel Pentre-Cwrt LLANDYSUL SA44 5DG	Energy rating F	Valid until:	3 September 2036
		Certificate number:	0019-0200-5406-6412-9914

Property type

Detached house

Total floor area

108 square metres

Rules on letting this property

You may not be able to let this property

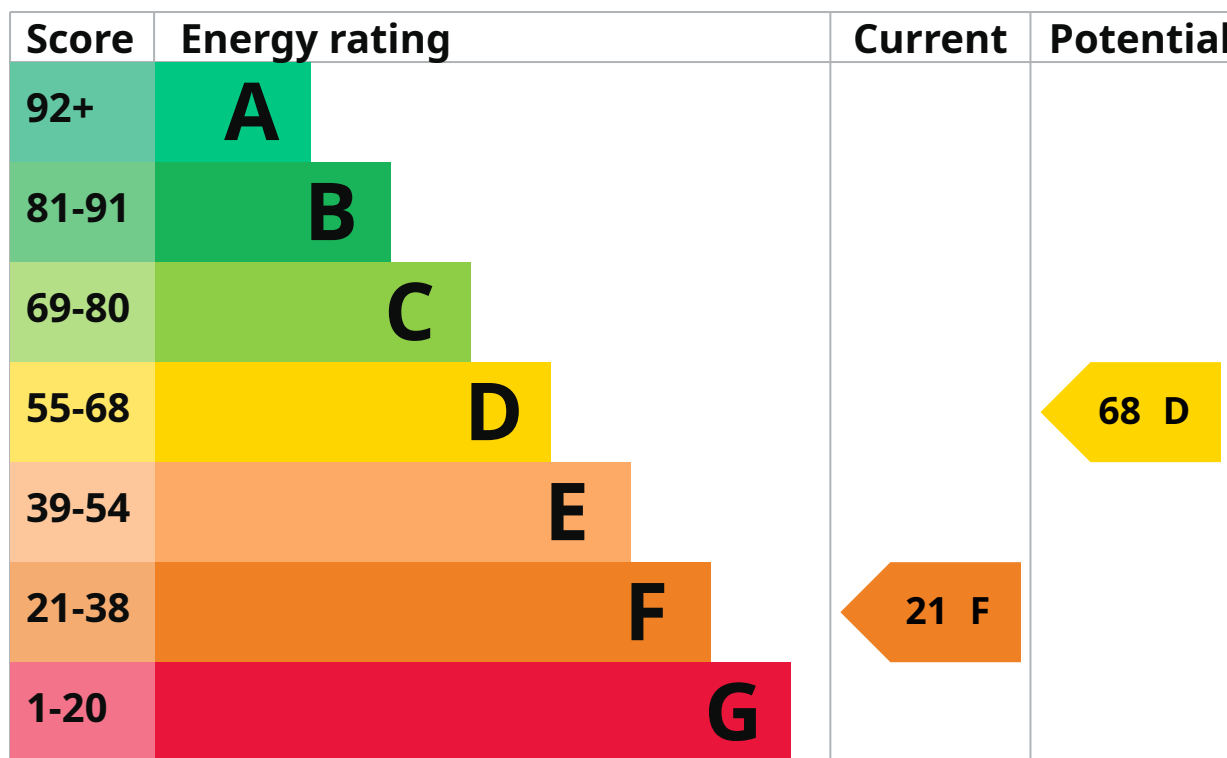

This property has an energy rating of F. It cannot be let, unless an exemption has been registered. You can read [guidance for landlords on the regulations and exemptions \(https://www.gov.uk/guidance/domestic-private-rented-property-minimum-energy-efficiency-standard-landlord-guidance\)](https://www.gov.uk/guidance/domestic-private-rented-property-minimum-energy-efficiency-standard-landlord-guidance).

Properties can be let if they have an energy rating from A to E. You could make changes to [improve this property's energy rating](#).

Energy rating and score

This property's energy rating is F. It has the potential to be D.

[See how to improve this property's energy efficiency.](#)

The graph shows this property's current and potential energy rating.

Properties get a rating from A (best) to G (worst) and a score. The better the rating and score, the lower your energy bills are likely to be.

For properties in England and Wales:

- the average energy rating is D
- the average energy score is 60

Breakdown of property's energy performance

Features in this property

Features get a rating from very good to very poor, based on how energy efficient they are. Ratings are not based on how well features work or their condition.

Assumed ratings are based on the property's age and type. They are used for features the assessor could not inspect.

Feature	Description	Rating
Wall	Cavity wall, as built, no insulation (assumed)	Poor
Roof	Pitched, 100 mm loft insulation	Average
Window	Mostly double glazing	Poor
Main heating	Electric storage heaters	Average
Main heating control	Manual charge control	Poor

Feature	Description	Rating
Hot water	Electric immersion, off-peak	Poor
Lighting	Below average lighting efficiency	Poor
Floor	Suspended, no insulation (assumed)	N/A
Air tightness	(not tested)	N/A
Secondary heating	Room heaters, electric	N/A

Primary energy use

The primary energy use for this property per year is 456 kilowatt hours per square metre (kWh/m²).

► [About primary energy use](#)

Additional information

Additional information about this property:

- PV recommended
When considering the PV installation consider installing PV battery and a PV diverter for water heating.
- Cavity fill is recommended
- Dwelling may be exposed to wind-driven rain

Smart meters

This property had **no smart meters** when it was assessed.

Smart meters help you understand your energy use and how you could save money. They may help you access better energy deals.

[Find out how to get a smart meter \(https://www.smartenergygb.org/\)](https://www.smartenergygb.org/)

How this affects your energy bills

An average household would need to spend **£5,941 per year on heating, hot water and lighting** in this property. These costs usually make up the majority of your energy bills.

You could **save £2,982 per year** if you complete the suggested steps for improving this property's energy rating.

This is **based on average costs in 2026** when this EPC was created. People living at the property may use different amounts of energy for heating, hot water and lighting.

Heating this property

Estimated energy needed in this property is:

- 29,569 kWh per year for heating

- 2,612 kWh per year for hot water

Impact on the environment

This property's environmental impact rating is D. It has the potential to be B.

Properties get a rating from A (best) to G (worst) on how much carbon dioxide (CO2) they produce each year.

Carbon emissions

An average household produces

6 tonnes of CO2

This property produces

4.5 tonnes of CO2

This property's potential production

2.2 tonnes of CO2

You could improve this property's CO2 emissions by making the suggested changes. This will help to protect the environment.

These ratings are based on assumptions about average occupancy and energy use. People living at the property may use different amounts of energy.

Steps you could take to save energy

► [Do I need to follow these steps in order?](#)

Step 1: Increase loft insulation to 270 mm

Typical installation cost

£900 - £1,200

Typical yearly saving

£128

Potential rating after completing step 1

22 F

Step 2: Cavity wall insulation

Typical installation cost

£900 - £1,500

Typical yearly saving

£1,154

Potential rating after completing steps 1 and 2

34 F

Step 3: Floor insulation (suspended floor)

Typical installation cost

£5,000 - £10,000

Typical yearly saving

£428

Potential rating after completing steps 1 to 3

39 E

Step 4: Hot water cylinder insulation

Add additional 80 mm jacket to hot water cylinder

Typical installation cost

£20 - £40

Typical yearly saving

£37

Potential rating after completing steps 1 to 4

40 E

Step 5: Draught proofing

Typical installation cost

£150 - £250

Typical yearly saving

£82

Potential rating after completing steps 1 to 5

41 E

Step 6: Low energy lighting

Typical installation cost

£240 - £280

Typical yearly saving

£41

Potential rating after completing steps 1 to 6

42 E

Step 7: High heat retention storage heaters and dual immersion cylinder and dual rate meter

Typical installation cost

£2,400 - £4,800

Typical yearly saving

£1,114

Potential rating after completing steps 1 to 7

59 D

Step 8: Solar photovoltaic panels, 2.5 kWp

Typical installation cost

£8,000 - £10,000

Typical yearly saving

£315

Potential rating after completing steps 1 to 8

68 D

Who to contact about this certificate

Contacting the assessor

If you're unhappy about your property's energy assessment or certificate, you can complain to the assessor who created it.

Assessor's name

Robin Gerard

Telephone

07796 424191

Email

dyfedenergy@gmail.com

Contacting the accreditation scheme

If you're still unhappy after contacting the assessor, you should contact the assessor's accreditation scheme.

Accreditation scheme

Quidos Limited

Assessor's ID

QUID200713

Telephone

01225 667 570

Email

info@quidos.co.uk

About this assessment
